

« *Wakes you each day as if it was the First of your Life* »

According to Marcus-Aurelius, Roman Emperor -2nd Century AD.

Dear **Magnus Carlsen**,

Sunday, the 30 of November 2014.

This Postcard for the Best Birthday that it is !

We do not have the Honor of knowing us, just know that I am one of your many "fans" dazzled by your unstoppable (?) evolution !

Today is a Special day: the first contact that could foreshadow a new development in the world of Chess... As a gift, please discover an amazing project that should inspire a growing generation of players in nearby & future times, on my new website: www.chesstrend.com.

I hope you'll appreciate with the Lyrics of Dotan !

After your Victory at Socchi, we certainly are at a historic turning point of the Noble Game, all the crucial Questions are open. Be aware of one phenomena, already underlined long time ago by **M.Bottvink** :

"Everything is constantly changing, even in the world of chess"

As you know, **Larry Lybman** wrote recently a paper about you [Unlike other sports, the chess playing field is changing significantly, etc. ...] * :

** Published Sunday, May 18, 2014*

(... Where you dramatically defined the new actual paradigm notably because of the "Computerisation" and numerous other *human reasons* proper to our epoch ...)

« I still play, of course, some traditional chess; profit more than any other player, I'm happy to head for new territory in later phases of the game. Too often real manoeuvres only start until 30th or later... »

Many, notably **Bobby Fischer** have lamented the passing of the Old Chess but failed to foresee clearly *the chess dynamic(s) of the future*. **SO WHAT NEXT ?**

Today is your day, goal tomorrow, monday, it's my week of playing.

Than, the clock will run for you, quietly, during two years of reflection: I suggest you no less than update the Greatest Chess-Part of History, just playing ONE COUP* !!! **(meaning literally and in the figurative sense,...)*

Last century, **Siegbert Tarrasch** said:

« *Many have become chess masters but no one has become The (Historical) Master of Chess* »

I purpose, friendly intensioned, that you become **The One**, by passing to the Speed 2.0 !

Then, you will be caught « **CARLSENIUS-MAGNUS, IMPERATOR of CHESS** »*; Forever.

(Private Joke, of course ! =<;oà)=)

Sincerely Yours, ...

NB: Remember that Revolution is usually a privilege of the Young adults, rarely this of the elder ones, *don't wait !* In the same way **Wilhelm Steinitz** said:

« *Only the player with the initiative has the right to attack...* » think about that !

Our project « A.S.X.C.P » is yet evolving, all suggestions are welcome ...

Follow on our Website during the exciting coming months !

MarcPier Sonveau, simple **StrateqXChess2.0**-Player at Namur-Chess-Club, WALLONIA.
